Kitengela, Kenya 

## ABOUT ME

I am a civil engineer who can advice, coordinate and supervise the technical aspects of road and building construction projects. I can read and explain architectural drawings and designs and therefore give proper guidelines and decisions in pressure situations. In addition to being able to work in a team environment, I can also work under minimal supervision, with a good command on the English and Swahili language - written and spoken.

## CAREER OBJECTIVES

1. To create, maintain and improve infrastructure such as roads, public transit system, pipelines and waste management systems among many.
2. To bring developmental growth in towns with the construction of perfect buildings.
3. To help people be able to work easily by easing movement.
4. To improve livelihoods in communities.

## EXPERIENCE

### November 2021 - March 2022

Kwops Engineering and Construction  
Kitengela, Kenya

### RECEPTIONIST

Worked as a receptionist at Kwops Engineering and Construction Company in Kitengela.
